# ZOMBIE - a better way to revive dead batteries!

Combines smart testing technology with proprietary algorithms to recover battery cores “recons”, retail returns and rotates!

## Key Features Include:

- One step: Connect and walk away!
- Reduce cycle times from 48-72/96 hours to 4-7 hours
- Identify bad batteries quickly by monitoring live voltage via PROView Link App™
- Boosts rotates in as little as 45-60 minutes
- Ability to mix chemistries (Wet/AGM)
- Eliminates lengthy post charge resting

# Process/Safety Differences

## Series Charge

## ZOMBIE

Series connections can cause improper charging, multiple charge cycles and damage recon batteries

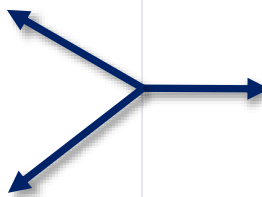

*Individual battery connection ensures proper charging/analysis*

Improper connection(s) can damage the charger and/or battery(s)

*Zero Spark Technology & Reverse polarity protection eliminates this issue*

To identify bad batteries, many operators have been taught to “short” batteries which is unsafe.

*Individually detects/notifies if there is a bad battery and stops the process*

Possibility for rapid disassembly of battery(s)

Requires handling/moving batteries multiple times

*Connect to batteries only once*
